Subject **Circulation prior to Adoption Consideration**
Draft 4 of Supplement 2 to ARINC Specification 664 Part 2: Ethernet
Physical and Data Link Layer Specification

Summary The Industry Activities staff prepared this draft based on recommendations from the NIS meeting held June 3-6, 2008, in Annapolis, MD.

This Supplement primarily provides material for the inclusion of Gigabit Ethernet cables.

All technical changes are shown in **blue**. The most current changes are also **highlighted**. Text that has been deleted may or may not be shown in ~~striketrough~~ depending on the extent of the deletions.

Action At the June meeting, the NIS agreed to review this draft for one month to allow industry review. Since no objections were received at the end of this NIS review period, the draft is being issued for adoption consideration at the AEEC General Session in October.

If you wish any comments to be considered at the end of the review period, please respond in writing (e-mail) to rto@arinc.com by 15Sep2008.
