**Activity
Scope**

This AEEC activity develops software interface standards for Real Time Operating Systems (RTOS) used with Integrated Modular Avionics (IMA). The expected benefit is to improve avionics software development, integration and the life-cycle engineering process.

**Meeting
Objectives**

The Application/Executive (APEX) Subcommittee will meet to develop **ARINC Specification 653: Avionics Application Software Standard Interface**. A roadmap for ARINC 653 future work will be discussed.

Part 1 – Required Services

- ARINC Specification 653 Part 1 was updated by Supplement 3.
- No activity planned at this time

Part 2 – Supplement 2 – Extended Services

- Extensions for Health Monitoring
- Draft Supplement 2 review

Part 3 – Supplement 1 – Conformity Test Specification

- Compliance Testing for Extended Services
- Draft Supplement 1 review

Part 4 – Subset Services

- ARINC 653 single thread profile
- Review Draft 3 of ARINC Project Paper 653, Part 4.

The goal of the meeting is to reach consensus on the content of material that will be included in ARINC Project Paper 653, Part 4.
